The end result is a lightweight, stain-resistant surface that retains all the natural beauty of the real thing without the inconveniences. All Homecrest faux tables employ Nano-Coating technology, a revolutionary clear coat that has:

- Super hard surface
- Self-cleaning/dirt repellent action
- Permanent water repellency
- Anti-graffiti and anti-stick properties
- Corrosion inhibitor
- Scratch, mar and abrasion resistant
- Chemical resistant paint protection
- UV protection

Casual Elegance

Whether you are enjoying an intimate dinner for two or gathering together as a family, the Sandstone table is ideal for any occasion. Featured here in our all new balcony height, the Sandstone table in Cocoa, makes a bold statement. The inspiration for this natural looking table top comes from the Southwestern quarries of the United States. The technologically advanced Nano-Coating ensures that your Sandstone table top will last for years to come.

A wooden rowing boat is beached on a sandy shore. The boat is filled with several large, colorful cushions. Some cushions have solid colors like yellow, lime green, and red, while others feature various striped patterns in shades of blue, green, red, and yellow. Two wooden oars are resting across the boat. The background shows the ocean waves breaking on the shore under a bright sky.
