BELLAIRE II

CUSHION | ALUMINUM

Taking inspiration from the 1960's Homecrest B99 chair and the popular Eames Chair emerges the Bellaire II seating collection. With comfort and style at the forefront, the retro-inspired Bellaire II mimics the curvaceous design elements of these two classics and brings a contoured design that cradles you in unprecedented comfort. This ultimate comfort is achieved with a layering of outdoor materials, creating the right balance of support, style and comfort. Bellaire II is available in all of Homecrest's frame finishes and cushion fabrics.

PRODUCT FEATURES

Grace is constructed with 4" heavy wall aluminum extrusion arms and 10" foam core inserts that are wrapped in moisture resistant ticking. The back is engineered with a multi-media cushion for added comfort. To achieve the ultimate in comfort, the Cuddle Chair, Sofa and Loveseat feature low side arm pillows, constructed in the same fabric as the cushion.

GRACE

CUSHION | ALUMINUM

Bring the indoors out with the clean lines and soft sophistication of Grace. Chic and stylish, Grace provides the perfect venue for dessert and cocktails after the show; yet is unbelievably deep and cozy. Grace also beckons you to curl up with a book and blanket to while away a lazy Sunday. Unleash your inner designer and select complementary fabrics for back upholstery and seating fabrics, or embrace simplicity with a neutral palette; the options are endless and the design is timeless with Grace.

LIBERTY

CUSHION | ALUMINUM

New for 2016 is our Liberty aluminum Deep Seating collection. Drawing inspiration from the beautiful craftsmanship of an earlier era in our country's history, Liberty's timeless design and unparalleled comfort will enhance outdoor spaces for generations to come. Create an environment of relaxation and serenity with a full complement of deep seating pieces, and carry design themes through to your dining area with Liberty Barrel Chairs.

The Liberty Barrel Chair is an iconic introduction, hearkening back to early days in Homecrest's history. This richly updated piece features the wraparound comfort of our traditional barrel chair and the unsurpassed comfort of Homecrest's industry-leading coil spring swivel rocker, while incorporating timeless design elements of our Liberty Deep Seating collection. As a front porch vignette for two, or elegant dining for a crowd, the Liberty Barrel Chair will create an engaging ambiance that celebrates the past and the future.

TRIBECA

CUSHION | ALUMINUM

Elegant, practical and functional, our Tribeca Deep Seating collection will create an outdoor space that is as comfortable as your living room. Tribeca showcases a distinctive dual criss-crossing motif on its back and arm reminiscent of a garden arbor. Like all our deep seating, Tribeca is crafted entirely of durable reinforced aluminum for rust-resistance, strength and easy maintenance.

Available in: **C** Cushion

Note: Refer to pages 82-93 for Natural Series table top options. Stripes are not recommended for deep seating pieces.

PRODUCT FEATURE

Baskets of the Dual Motion Loveseat move independently of each other, providing individualized comfort. Tensioned rocking motion for these pieces is achieved with two flexing durable plates. The plates are primed with an autophoretic primer and then finished with a baked-on powder coat.

HOMECREST SPECIALTY

Comfort, style and functionality are all characteristics that are synonymous with the pieces that are part of what we call Homecrest Specialty. Choose from Sling, Padded Sling and Cushion seating options, in multi-position lounges, outdoor swivel recliners and single seat gliders. All pieces provide a unique comfort experience that can be coordinated with any Homecrest deep seating or dining collections and will be the envy of your guests and neighbors.

HAVENHILL

Visit pages 12 and 32 to view entire collection.

New for 2016, we are pleased to expand our Specialty selection by introducing pieces unique to the Havenhill collection. With the clean lines and transitional design of Havenhill, these Specialty pieces continue to create a space of comfort and relaxation, while bringing fresh new styling to the category.

HOLLY HILL

— Visit pages 14 and 34 to view entire collection.

Holly Hill's Comfort Recliner, a multi-position chaise, utilizes dual tension knob assemblies. Two 1/4" thick leather washers provide smooth gliding action. The open end arm design allows for easy entry and exit of the unit. When the Comfort Recliner is in the full reclined position, pressure on the spine is dramatically reduced and the elevation of the legs promotes healthy circulation.

Holly Hill's Reclining Swivel Rocker's 3-in-1 full swivel action, smooth rocking motion, easy-to-use tension knob for multi-position reclining are components for creating individualized comfort.

SLING AND WOVEN

Our luxurious Sling collections and our popular Homecrest Woven options add relaxed elegance to any patio, pool or fireside. The Homecrest double layer sling has been a consumer favorite for over four decades, offering unsurpassed comfort and exceptional longevity. Homecrest Woven is available on all Sling dining collections and features high-quality resins woven around both sides of our ergonomically-shaped aluminum frames for strength, durability and unprecedented woven comfort.

AIRO2

SLING | ALUMINUM

Designed for ultimate versatility, this sophisticated transitional collection of modular pieces has transformed deep seating. Airo2 takes the traditional outdoor cushion and turns it into a sling that has the look of a deep seat without any inner cushion material; giving the feeling of sitting on air. Airo2 is virtually maintenance-free, fast-drying and comfortable. This patented technology is available exclusively by Homecrest and is ideal for both residential and commercial.

ELEMENTS

SLING | ALUMINUM

Uniquely transitional and highly functional, Homecrest is pleased to introduce the Elements Sling collection. Subtle curves and simple angles combine to create a collection that can be artfully classic or freshly modern, depending on your design sensibilities and your outdoor space. Available in low back, high back and balcony seating, Elements has the added versatility of complementing a wide range of deep seating styles with ease and grace.

PRODUCT FEATURE

The AlumaRoc™ features precision bent aluminum springs that are assembled to an aluminum plate and post, which provide a smooth swivel and rock motion. The slots in the top of the spring allow for the undercarriage to move forward for a firmer rock and backwards for a softer rock. The AlumaRoc has been tested to exceed one million rock cycles and is made completely of aluminum.

HOSPITALITY AND METAL

Fashion meets utility in Homecrest's Metal collections. Our Mesh, Slat and Café collections are equally suited to commercial applications and residential spaces where scale, stackability and care-free maintenance are top priorities. Surprisingly comfortable even without a cushion, these ergonomically designed frames stand up to extreme weather, stack for convenient storage and security, and wipe down with a cloth for the optimum in maintenance-free outdoor living, even when in rigorous use.

FIRE TABLES AND ACCESSORIES

Homecrest is embracing a variety of new technologies with the launch of several new fire table collections. From the Aurora fire tables that feature our Icon Series and Natural Series table tops, to the Lunar and Valero series that feature endless customization options. Available in coffee, chat, dining and balcony heights, Homecrest fire tables offer a powerful 65,000 BTU burner. This incredible heat will extend your outdoor season and add ambiance to your outdoor space.

AURORA ICON SERIES | ALUMINUM

Turn up the heat and light up the night with Aurora. These stunning tables use Homecrest's Icon Table Series, achieving a look that is remarkably high design while retaining all of the strength and weather-resistance you have come to expect from Homecrest. Available in 19" coffee and 24.5" chat table heights with a powerful 65,000 BTU burner, Aurora's beauty will create an atmosphere of relaxation and conversation. Infinitely customizable, choose from three unique table surfaces in a variety of finishes, shapes and sizes, select any Homecrest frame finish for your base and side panels (Duo-Tone available), and mirror design elements of your outdoor space by selecting from a wide variety of shimmering fire jewelry.

PRODUCT FEATURE

The Aurora table base is available in a single frame finish or with contrasting side panels (Duo-Tone). When ordering and selecting the Duo-Tone option, list the frame color first followed by the panel color. If a second color is not listed, the fire table will be painted in the single frame finish (ie. Frame: Flint/Side Panels: Onyx). Suggested options are shown below.

Frame: Sedona
Side Panels: Cognac
Top: Quartz

Frame: Flint
Side Panels: Onyx
Top: Mica

Frame: Flint
Side Panels: Shale
Top: Ivory Marble

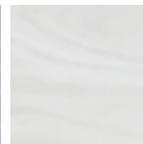

AVAILABLE ICON SERIES COLORS

61 - QUARTZ

44 - MICA

34 - IVORY MARBLE

MIX & MATCH

Add some glamour and pizzazz to your Aurora Icon Series fire table with one of Homecrest's Fire Rings! Available Fire Ring options are shown on page 78.

ORDERING YOUR FIRE TABLE:

- Select a Height
- Pick a Frame Finish Color
- Choose a Table Top
- Select Fire Jewelry
- Choose a Cover (Optional)

Order, take home and enjoy!

Note: All fire tables come standard with a stainless steel black powder coated bowl and 20 lbs of fire jewelry with your choice of one or two colors. View fire jewelry colors and additional accessories on page 78. The 19" coffee fire pit requires a horizontal tank that is sold separately. Use model number 005269 when ordering.

PRODUCT FEATURE

The Aurora table base is available in a single frame finish or with contrasting side panels (Duo-Tone). When ordering and selecting the Duo-Tone option, list the frame color first followed by the panel color. LUNAR ALUMINUM

The Lunar fire pit fits the market's demand for greater value, durability and a generous octagonal top. This unique all-aluminum fire pit features an embossed leather texture top and side panels, an enhanced 3" apron depth, vented corners to prevent moisture retention and a match throw fire start. The Lunar fire pit is designed for color customization (Duo-Tone), allowing one to select a complementing or contrasting frame finish for the side panels.

TABLES

From aluminum to resin, glass to copper, Homecrest continues its long history of innovation in outdoor table technologies. Turn the pages to see breathtaking styles reflecting natural stone, natural wood and cultured marble (to name just a few), used in applications from occasional tables to balcony height tables. Whether glass, metal or resin, Homecrest tables are structurally engineered to be used year-round in even the most demanding settings and are artistically designed to be a tasteful and welcoming feature in beautiful outdoor environments.

STONEGATE NATURAL SERIES

The Stonegate collection captures the richness of granite without the expense and maintenance. With a deep 2" profile and straight edge finish on our casual and dining tables. The clean simplicity of Stonegate's styling adapts it to a wide range of design applications, whether traditional or contemporary, residential or commercial. Stonegate is a popular fire table top option and showcases a 3" edge profile on our Aurora fire pits.

TIMBER NATURAL SERIES

Cast from beautiful reclaimed wood tables, the Timber collection is at once on-trend and timeless. Using the same technology we use in all Natural Series tables, we are able to achieve a look that is marvelously realistic while retaining the outstanding outdoor performance characteristics you expect from Homecrest. Available in Sequoia and Drift colors, choose from a wide range of sizes in dining, occasional and balcony heights, or warm up fireside with the new Aurora Timber 42" square fire tables.

WHY HOMECREST?

NATURES APPEAL

Healthy outdoor living means protecting the environment and today we're interested in ecologically-friendly designs and products. Sturdy, durable outdoor furniture with a long lifespan is more appealing than "disposable" furniture meant to last only a few seasons. Just ask around, Homecrest customers are well aware of the longevity of our products. Many consumers have Homecrest furniture that is over 30 years old, and are still using it with great satisfaction. Replacement slings and cushions are also available to extend the life of your Homecrest furniture. Just visit your local dealer to order replacement slings, cushions, paints, parts and more or visit www.homecrest.com.

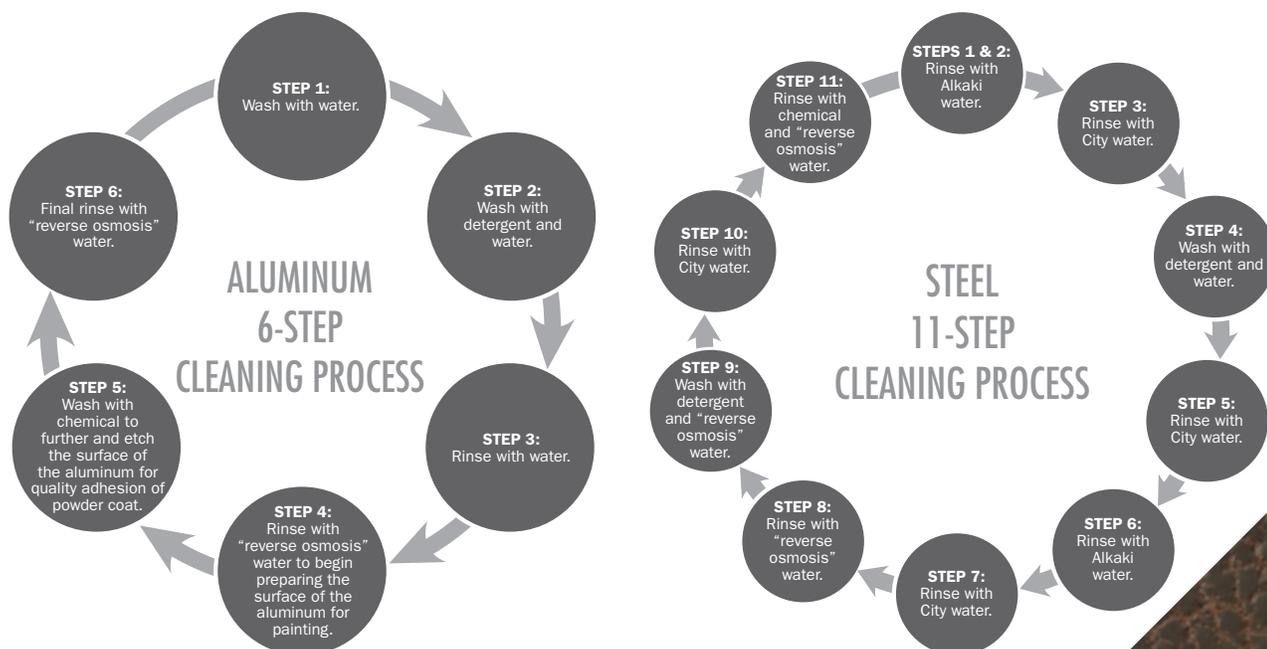

Whether you are updating your look with new cushions or slings or simply need to replace a misplaced component, Homecrest is pleased to offer a wide range of replacement slings, cushions and parts for pieces and collections we have sold over the decades. Even if a product is discontinued, chances are excellent we will have a replacement that you need. For more details, please visit our website at www.homecrest.com/replacements or visit your nearest authorized retailer.

MADE IN THE USA

With its Made in America quality and comfort, its design, innovation and incomparable styling, fabric and finish options, Homecrest outdoor furniture is proud to be an iconic American brand, that continues to be designed, engineered, and manufactured in the USA. Homecrest customers are well aware of the longevity and quality of our products, and we are known for comfort and durability. Many consumers have had Homecrest outdoor patio furniture for over 30 years, and they still use it with great satisfaction.

OUR FRAMES WITHSTAND THE TEST OF TIME

Our aluminum and steel frames go through an extensive cleaning process that cleans the raw material from any foreign debris and prepares the surface of the frame for quality adhesion for the next finishing step. Homecrest's state-of-the-art, eco-friendly finishing department uses an Aquence Autodeposition primer coat technology for all steel collections. Steel components are completely submerged in the Aquence primer to coat both the outside and the inside of the components. The Aquence primer coat is then baked-on and the steel piece moves on to receive a baked-on polyester powder coat finish. After passing through a 6-step cleaning process, the aluminum frames receive the same baked-on polyester powder coat finish, which provide a durable finish for seasons to come.

DEEP SEATING CUSHION COLLECTIONS

Whether traditional, transitional or contemporary in design, Homecrest's deep seating collections are at once beautiful and incredibly comfortable. We use innovative techniques and top-quality materials to ensure that beauty and comfort last for decades. Continue reading to learn more about our deep seating technologies, and how our manufacturing processes assure outstanding longevity of every frame and cushion we create.

The DreamCore™ cushion core begins with **High Resilient** furniture grade foam for the interior of the cushion. High Resilient foam provides exceptional durability and longevity, while offering an outstanding level of comfort. Unlike Viscoelastic foam (memory foam), the cell structure of High Resilient foam is less uniform and more random than conventional foams creating a stronger structure, excellent elasticity and increased supporting force, thereby providing support, resilience, and ultimately, unparalleled comfort.

HIGH BACK DINING CHAIR | 1K379 | Sahara

42" x 84" TIMBER DINING TABLE | 254284D | Sequoia

1 DREAMCORE™ BACK CUSHION

The cushion back is constructed with moisture resistant ticking and is engineered to match the silhouette of the cushion creating a tailored look. The cushion utilizes individual channels which hold the fill in place and creates both support and comfort.

2 DREAMCORE™ SEAT CUSHION

The seat cushion is constructed with High Resilient furniture grade foam wrapped with dacron and wrapped with moisture resistant ticking that is glued, not sewn, to prevent moisture penetration.

The seat deck is constructed of 100% virgin vinyl strapping for enhanced comfort. Virgin vinyl straps do not contain clay fillers which reduces memory of the strap.

3 GROMMET VENTING

The underside of the seat cushion cover features grommet openings for breathability.

4 ALUMAROC™ SWIVEL ROCKER

The all-aluminum AlumaRoc™ features precision bent springs that are assembled to a plate and post, which provide a smooth swivel and rock motion. The slots in the top of the spring allow for the undercarriage to move forward for a firmer rock and backwards for a softer rock. The AlumaRoc has been tested to exceed one million rock cycles!

5 VELCRO BACK FLAP

Seat and back cushion feature a back flap that utilizes Velcro to anchor the cushions together. This eliminates the use of ties or tabs.

7 FRAME CLEANING PROCESS

All of Homecrest's aluminum and steel frames go through an extensive cleaning process prior to painting to ensure quality adhesion of the baked on powder coat finish.

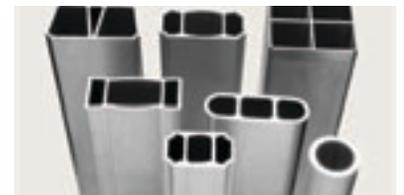

6 IMPORTANCE OF FLOOR GLIDES

All floor glides protect the frame and reduce scratching the finish when moving the piece across a surface. Floor glides are a polycarbonate construction and are tested to 50,000 abrasion strokes.

8 CUSTOM EXTRUSIONS

Homecrest uses custom designed aluminum extrusions, manufactured to our specifications for strength with internal wall reinforcements for additional durability.

Note: Shown is the Havenhill Swivel Rocker Chat Chair. Cushion dining pieces can be viewed on pages 8, 10, 12, 16 and 20.

DINING CUSHION COLLECTIONS

Our dining cushion collections offer luxurious comfort in pieces scaled in height and size to dining settings. Quick-drying and supremely resistant to mold, mildew or fading, these plush pieces add warmth and richness to the outdoor dining experience. The cushion features a simple turned seam and wraps the fabric selected around the sides of the cushion to meet the same fabric selected on the back of the cushion.

20" SQUARE PILLOW | 00P20 | Mainstreet Wren (Sunbrella®)

42" LUNAR FUSION CHAT FIRE TABLE | 4242CF | Galaxy Side Panels

1 DINING CUSHION CONSTRUCTION

The cushion is constructed of four layers of 2" polyester fiber fill that allows moisture to pass through it. Homecrest's quality crafted cushions are fast-drying and durable. The Homecrest cushion features no welt and uses a simple turned seam and wraps the fabric selected around the sides of the cushion to meet the same fabric selected on the back of the cushion.

2 VIRGIN VINYL STRAPS

The seat deck is constructed of 100% virgin vinyl strapping for enhanced comfort. Virgin vinyl straps do not contain clay fillers which reduces memory of the strap. They are inserted into a slotted frame and are double wrapped.

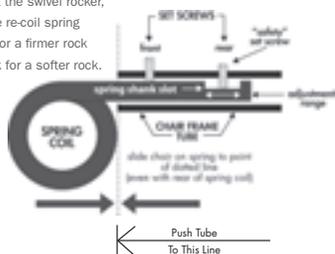

3 SWIVEL ROCKER MECHANISM

Homecrest invented the original adjustable 'Swivel Rocker Mechanism' and patented it in 1956. The re-coil spring and swivel plate are attached to a bottom swivel plate that encapsulates a nylon bushing and 12 stainless steel ball bearings. Together they create a smooth and durable swivel rock motion. This mechanism has passed the million rock test and is the only one in the industry that is available on balcony height.

To adjust the swivel rocker, move the re-coil spring forward for a firmer rock and back for a softer rock.

4 SLIP COVER

Cushion is tailored with a matching slip cover eliminating exposed straps on the back frame. Cushion is held in place to the slip cover with 2" industrial grade Velcro and with a pocket flap on the front of the seat to conceal the frame.

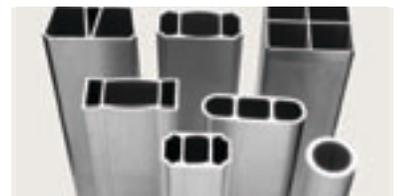

5 IMPORTANCE OF FLOOR GLIDES

All floor glides protect the frame and reduce scratching the finish when moving the piece across a surface. Floor glides are a polycarbonate construction and are tested to 50,000 abrasion strokes.

6 CUSTOM EXTRUSIONS

Homecrest uses custom designed steel and aluminum extrusions, manufactured to our specifications for strength with internal wall reinforcements for additional durability.

7 EXTENSIVE CLEANING PROCESS

All of Homecrest's aluminum and steel frames go through an extensive cleaning process prior to painting to ensure quality adhesion of the baked on powder coat finish.

Note: Shown is the Palisade Swivel Rocker Dining Chair. Other cushion dining pieces can be viewed on pages 12, 14 and 18.

SLING AND WOVEN COLLECTIONS

For over 60 years, our business has been built upon the quality and reputation of our patented double layer sling dining pieces. The creators of the industry's first swivel rocker, we take pride in the widely-respected comfort and longevity of our sling and woven dining pieces. As you read ahead, you will learn about the materials and processes that have been the building blocks of our success over the last six decades.

LANA SPRING BASE DINING CHAIR | 44600

18" SQUARE PILLOW | 00018 | Canvas Melon (Sunbrella®), Token Caribbean (Sunbrella®), Spectrum Peacock (Sunbrella®), Echo Citron (Sunbrella®)

1 STEEL CLEANING PROCESS

All steel components pass through an 11-step cleaning process before they are dipped into an automotive primer which allows the primer to coat and flow through the tubing for thorough coverage. To protect the steel surface, the primer coat is baked on and then a polyester powder coat is applied and baked on for a 1/2 hour at 420 degrees.

2 ALUMINUM CLEANING PROCESS

All aluminum products goes through a six step process to clean and prepare the metal for painting. Parts are then dried and ready to paint. Powder coat is electrostatically applied and baked for a 1/2 hour at 420 degrees. To ensure a quality process is maintained, testing is done on samples within a paint run for the proper adhesion.

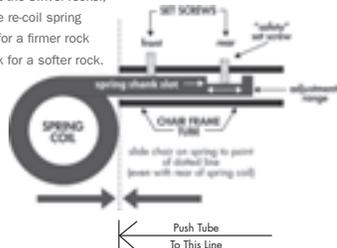

3 SWIVEL ROCKER MECHANISM

Homecrest invented the original adjustable 'Swivel Rocker Mechanism' and patented it in 1956. The re-coil spring and swivel plate are attached to a bottom swivel plate that encapsulates a nylon bushing and 12 stainless steel ball bearings. Together they create a smooth and durable swivel rock motion. This mechanism has passed the million rock test and is the only one in the industry that is available on balcony height.

To adjust the swivel rocker, move the re-coil spring forward for a firmer rock and back for a softer rock.

1 Note: Applicable to Espresso, Latte, Manhattan and Wynn collections.

3 Note: Applicable to Florida Mesh collection.

4 IMPORTANCE OF FLOOR GLIDES

All floor glides protect the frame and reduce scratching the finish when moving the piece across a surface. Floor glides are a polycarbonate construction and are tested to 50,000 abrasion strokes.

6 MANY SEAT OPTIONS

The metal collections feature many different seat options including: starburst, slat, slotted, mesh and padded. Padded seats are available in any Sunbrella® or Outdura cushion fabric. The starburst, slat, slotted and mesh seats are available in any Homecrest frame finish.

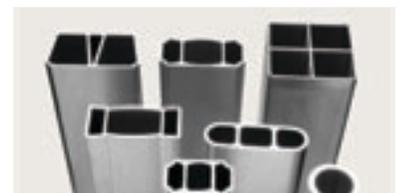

5 SPRING BASE

The strength of the Spring Base has been tested to over one million rocks. Testing is done by dropping 150 lbs. four times to ensure weld and frame integrity. The soft relaxing motion of the spring base is achieved, with encapsulation of a 1/2" steel rod in the complete length of the aluminum side/leg frame, providing durable motion.

7 CUSTOM EXTRUSIONS

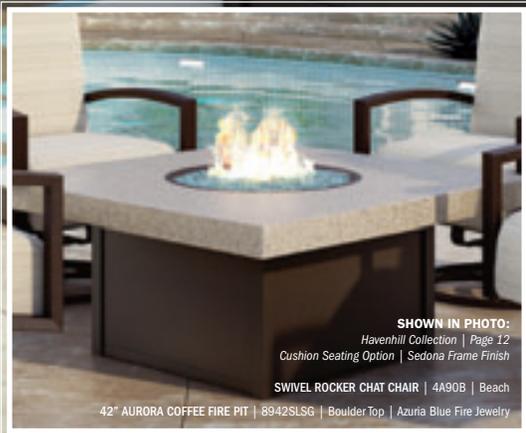

Homecrest uses custom designed steel and aluminum extrusions, manufactured to our specifications for strength with internal wall reinforcements for additional durability.

Note: Shown is the Lana Spring Base Dining Chair. See pages 48-60 for all metal seating pieces.

FIRE TABLE COLLECTIONS

Whether aluminum or sophisticated engineered composites, all of Homecrest fire tables are fabricated with top-of-the-line materials using industry-leading technologies. Homecrest fire tables are 100% match light for ease of use and long term durability. They also feature a powerful 65,000 BTU burner which provides a generous heat source and are UL and cUL listed. Continue reading to learn about the processes and characteristics that set Homecrest tables apart from the crowd.

1 ICON SERIES TOPS

Available on Aurora fire tables, the Icon Series tops feature a 3" edge thickness and incorporate technology used for the indoors but with marine grade gel coats for UV stability. This technology is paired with a "filled polyester resin substrate" for durability and finished with an automotive grade clear coat, creating a surface perfect for outdoor applications.

Using these processes Homecrest offers three stunning color options that each feature a high-gloss finish and four unique shapes.

2 NATURAL SERIES TOPS

Natural Series tops have an 1.5" to 2" edge thickness and are available on the Valero series in coffee, chat, dining and balcony heights with either a 42", 48" or 54" round top. Stonegate and Timber Natural Series tops are available in the same four unique sizes with the 3" edge profile as the Icon series for use on the Aurora fire base design.

Our tops are constructed with a polyester resin substrate which gives them added durability and are finished with a marine grade gel coat that reduces stain and abrasion. Using these processes allows for 13 different stunning texture and color combinations.

3 BASES AND SIDE PANELS

Aurora all-aluminum bases are available in coffee and chat heights. Valero all-aluminum bases are available in coffee, chat, dining and balcony heights. Bases are available in a single frame finishes or with contrasting side panels. A woven side panel option is available on Valero bases in Coco or Hampton color options.

4 EASY PROPANE ACCESS

Each fire table base allows for a 20 lb vertical or horizontal propane tank to be hidden, yet allows for easy tank access whether it's on the door using a mounting bracket or utilizing a drop down side panel. Our fire tables can either be propane fueled or converted to Natural Gas.

5 FIRE JEWELRY AND ACCESSORIES

With a dozen fire jewelry options (each fire table comes with two 10 lb containers, your choice of one or two colors) to choose from, to decorative fire rings, designer fire bowls, lazy susans and lid options, our fire tables will bring your outdoor space to life! The glass guard is a great accessory to enhance the flame and contain the flame in windy conditions.

6 EXTERNAL KEY

Each fire table comes equipped with a removable key valve, providing easy flame control when in operation and the added safety of a removable key to prevent tampering when not in use.

7 FIRE BOWL CONSTRUCTION

Bowl-shaped fire pan provides added safety, concentrating the flames towards the center of the bowl and minimizing the opportunity for flames to skip on the surface.

Our fire bowls are stainless steel and are powder coated black to avoid discoloration of the bowl surface.

Note: Shown is the Valero fire table with a Duo-Tone base. See pages 66-76 for all fire table collections.

TABLE COLLECTIONS

Whether aluminum, steel, glass or sophisticated engineered composites, all of Homecrest tables are fabricated with top-of-the-line materials using industry-leading technologies. These low-maintenance Homecrest tables are available in a variety of heights, patterns, colors, finishes and sizes. Continue reading to learn about the processes and characteristics that set Homecrest tables apart.

1 NATURAL SERIES CONSTRUCTION

Technology is constantly changing and constantly improving. Our Natural Series surfaces employ the best practices from the counter top and marine industries, producing individually handcrafted surfaces made to withstand the outdoor elements. Starting with proven marine grade gel coats, adding tough polyester cores, and finishing them off with our automotive grade “Nano-Coat” clear coating technology, our surfaces are made to withstand the rigors of the outdoor environment.

What is “Nano-Coat?”

Nano-Coat provides a super hard surface that is UV protected, has a chemical resistant paint protection and a corrosion inhibitor. The surface is then resistant to scratches, mars and abrasions. It contains anti-graffiti and anti-stick properties which lends itself to repel water and dirt making it easy to clean.

2 NATURAL SERIES COLORS AND SIZES

Each top is individually handcrafted to replicate the look of hammered metal, sandstone, slate, stone or wood by using natural elements in the mold making process. The Natural Series table collections feature a detailed 1.5” to 2” edge thickness and are available in a variety of shapes, colors, sizes, heights and textures.

All of Homecrest’s aluminum and steel frames go through an extensive cleaning process prior to painting to ensure quality paint adhesion.

4 DUO-TONE OPTION (DOCKSIDE)

The base frame and inset center slats are available in a single frame finish or in two frame finishes, known as Duo-Tone.

5 CAST ALUMINUM

The top is constructed with a sand cast aluminum plate and aluminum extruded rim that is welded and sandblasted to create a clean and consistent appearance.

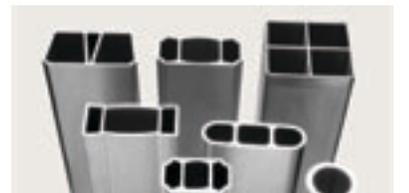

6 INNOVATIVE TECHNOLOGY

Homecrest utilizes an innovative wood grain surface technology that is used extensively in automotive, powersports and firearms industry on our Atlas collection. The surface is protected with acrylic automotive clear coat and passes 5,000 hours of UV weatherability.

7 CUSTOM EXTRUSIONS

Homecrest uses custom designed steel and aluminum extrusions, manufactured to our specifications for strength with internal wall reinforcements for additional durability.

Note: Shown is the 54” Round Stonegate Dining Table. See pages 82-106 for all Natural Series, Glass, Cast Aluminum and Metal table collections.

FABRICS AND FINISHES

Experience the ultimate in style and selection with Homecrest's outdoor fabrics and durable finishes. With a wide variety of colors and textures you can choose the look that suits you. Customize your chair, sofa or lounge by using our online Interactive Design Center at www.homecrest.com. Here you can customize Homecrest furniture with our complete fabric and frame finish offerings.

HOMECREST FABRICS

SENSATIONS AND OTHER SLINGABLE FABRICS

Homecrest offers over 20 collections in our casual outdoor furniture line. Our collections reflect a variety of styles, including deep seating, dining and café. Whether you're relaxing on your patio, celebrating with friends or just enjoying the outdoors, Homecrest furniture will satisfy design tastes from coast to coast.

Sensation fabrics, offered exclusively by Homecrest, are unique in the outdoor furniture industry, as they combine the strength and UV stability of PVC fibers with the comfort and outstanding memory of elastomeric yarns. Combine this with our proprietary double-layer, ergonomically contoured sling technology and you get arguably the most comfortable outdoor sling chair on the market.

Sensation fabrics undergo exhaustive testing for wear, memory and UV stability, to exceptional results. Our Sensation fabrics have been out in the field for more than ten years, and customers who purchased Sensation furniture more than a decade ago currently report that their Homecrest chairs continue to have the same stretch, memory and colorfastness as they did when they purchased them.

For all of the excellent technical properties, what really makes Sensation fabrics stand out at retail is the incomparable comfort. For 2016, we are pleased to introduce several new pattern and color options for use on all sling dining and sling deep seating collections, to build on the success of more than ten years of use and enjoyment by consumers across the country. If Sensation fabrics are new to you, be sure to take an opportunity to sit in a Sensation chair — you'll never look at sling furniture the same way again.

For design ideas and inspiration, visit our website. To help you visualize and customize your chair or fire table, use our Interactive Design Center at www.homecrest.com. Here you'll have the opportunity to 1) Pick your frame 2) Choose your finish 3) Select your fabric and 4) View, print and buy.

SUNBRELLA® FABRIC INDEX

In addition to the Homecrest sling selections, the Sunbrella stock line is available for new orders and replacement cushions.

- Colors stay strong and vibrant in sun exposure and can be cleaned with bleach.
- Fabrics are soft, durable and create an inviting decorative option.
- Jacquards, stripes and solid color textures can create a dramatic effect for your outdoor space.

WELT FABRICS

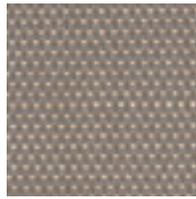

Homecrest's industry leading Slings and Padded Slings are constructed using welting. You may select a welting color below to coordinate with your fabric or if no welt fabric is selected, the welt fabric will default to match the frame finish. These options can also be used as Slings and backing for Padded Slings.

SEATING OPTIONS AND FABRIC SELECTION GUIDE

SS Sensation Sling and Sling | Our patented Airo2 seating collection utilizes a single layer sling giving it the look of a Cushion in a Sling. Airo2 has no insert or fill material. Since Airo2 is a cushionless design, it uses our Sensation fabrics for unmatched comfort and support.

S Sling | The Homecrest pioneered Sling is constructed of double layers for unmatched comfort and support. Our durable outdoor Sling is available in a variety of outdoor fabrics and is easily replaced. Minimal maintenance and comfortable design continues to make the Homecrest Sling a #1 choice from coast to coast. When selecting a Homecrest Sling seating option, you will need to select a welt or binding color. Welting will match the frame finish unless an alternate is selected. Slings utilize the same fabric on the front and back for an attractive look.

PS Padded Sling | Our Padded Sling seating option features a triple layer sling with slight padding for added comfort. This attractive chair with distinctive perimeter stitching gives you not only a comfortable fit, but is a stylish addition to your backyard or patio. The Padded Sling seating option expands your fabric options to include cushion or acrylic fabrics in addition to our slingable fabrics. Like the Sling seating option, when selecting the Padded Sling seating option, you will need to select a welt or binding color. Welting will match the frame finish unless an alternate is selected. Padded Slings will be same front and same back if selecting a fabric that is available in both Sling and Padded Sling. However, if you select a fabric that is available as a Padded Sling and NOT as a Sling, you will need to select a Sling fabric for the back. Pick a fabric for the back that says it is available as a Sling seating option.

C Cushion | Our durable cushions provide additional comfort in a fast paced world (the Cushion seating option includes Deep Seating, Removable Cushions and Padded Seats). Homecrest removable cushions are extremely comfortable, water resistant and made for the outdoors. Most of our cushion designs feature a clean, simple seam with no welting.

WB Woven | Homecrest Woven products use synthetic resins with a 5000 hour UV rating, the highest designation in the industry. Our Woven seating products are fully woven around both sides of a rock-solid powder coated aluminum frame. The resins are stable through extreme temperature variations and will remain flexible and supple to the touch after multiple seasons; they are also highly fade-resistant and are not subject to mold or mildew.

HOW TO READ A HOMECREST FABRIC LABEL AND MAKE ORDERING EASY...

When choosing a fabric for the product selected, seating options coding will confirm the availability. Please indicate the fabric grade and follow the "ordering process" instructions for that fabric.

MARKET | DINING AND BALCONY/BAR HEIGHTS

Our Homecrest dining, balcony and bar umbrellas are the benchmark by which others are compared and are available in many of the Homecrest fabrics.

Umbrella Features:

- 100" non-recycled aluminum frame offers 30% more strength.
- 1.2 mm wall thickness - offers 20% more strength than low 1 mm.
- 1 mm rectangular rib extrusion - offers more strength than others main pole.
- Manual crank lift for easy operation.
- Kevlar woven lift cord - offers superior strength and is lightweight and flexible.
- Advanced tilt mechanism - offers greater tilt angles for more and longer shade.

NEED HELP IDENTIFYING AND INSTALLING YOUR REPLACEMENT SLING?

Homecrest offers several different tools to help you identify the replacements you need and instructions on how to install. If you need help with identification we encourage you to visit our website at www.homecrest.com/replacements. There you will have access to a "How to" videos and pdf downloads. Most Homecrest pieces have a manufacturing decal that will assist in the identification of your product. The image to the right shows the information required. If this information is not available, refer to the "Model Identification Guide" and search by collection name, year of purchase and product type (ie. glider, swivel rocker, etc.) Visit your local dealer to order replacement slings, cushions, paints, parts and more or visit shop.homecrest.com.

Available in: S Sling

Colors are representations, please refer to an actual sample.

TWO SIMPLE STEPS ON HOW TO DETERMINE WHICH SLING BASKET YOU NEED:

STEP 1:

Determine if your chair has an internal or external cross-rod.

INTERNAL CROSS-ROD

No visible cross-rod on upper 1/3 of the chair back.

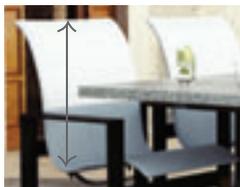

EXTERNAL CROSS-ROD

Visible cross-rod at the top or in the top 1/3 of the chair back.

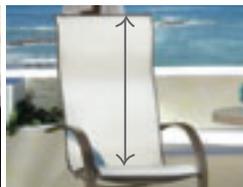

STEP 2:

Determine if your chair is a low back or high back.

LOW BACK

Baskets measure 23" to 25" from the curve to the top.

HIGH BACK

Baskets measure 29" to 32" from the curve to the top.

CELEBRATING OVER 60 YEARS...

From early ottomans to the original swivel rocker to one of today's leading outdoor furniture manufacturers, the Homecrest brand has been an industry favorite since 1953. Homecrest combines a rich history of quality and classic design with today's demand for affordable luxury and versatile living. Over the years, Homecrest's focus has broadened to encompass the increasing demands of sophisticated, style-driven consumers seeking to complement their homes' interior designs and create a seamless flow between indoor and outdoor living spaces.

#25 CHAIR

KINGSTON

EDINA

CRICKET

HOLLY HILL

1953

Homecrest begins in the back warehouse of a furniture store making a Hassock ottoman.

1956

Homecrest patents a swivel rocker mechanism and introduces it on an indoor chair which brings growth to the company.

1960

Enters the outdoor casual market with a wire frame café chair.

1962

Introduces the well known models like the 36 and 90 chairs.

1966

Homecrest's growth inspires a variety of both indoor and outdoor collection designs.

1971

Vinyl strap is a growing category bringing new color and style. The growing wire frame collection Edina, in the popular Holly Hill fabric pattern, is widely retailed across the country.

1983

Homecrest introduces the double layer sling, providing unsurpassed comfort - unique to the industry and continues to be used today.

1985

Homecrest retires the wire collection, yet continues to offer replacement cushions and slings today for most collections including vintage wire.

1988

Homecrest adds the Padded Sling option to the growing list of collections.

1991

The introduction of the Holly Hill Cushion collection allows Homecrest to offer a wider variety of low maintenance aluminum pieces to fit the needs of a growing market.

Since 1953

AFFINITY

2000

Homecrest moves into a new state-of-the-art manufacturing facility which remains home today. All products continue to be engineered and manufactured proudly in the USA.

2001

Homecrest receives the Manufacturers Leadership Award for the fifth time.

PALISADE

2002

Homecrest takes the comfort of the double layer sling to the next level with the use of Sensation stretchable fabrics. Another industry first.

2004

Holly Hill Sling is named a Consumer Best Buy.

2009

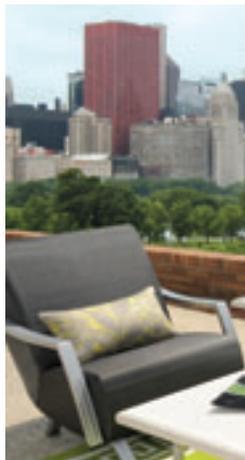

Homecrest introduces the industry's first swivel rocker balcony stool.

AIRO2

2011

The innovative Airo2, a "cushionless" Deep Seating group, is introduced to the industry. Airo2 offers the comfort of a cushion with the easy care of a sling.

2012

Homecrest introduces the Dockside collection, providing additional table options.

BELLAIRE

2013

Taking inspiration from the 1960's Homecrest's B99 chair, Homecrest launches the Bellaire collection.

2014

Homecrest launches Lana and Benton seating collections and transforms slingable seating by introducing a re-engineered front and back fashionable sling design.

LIBERTY

2015

It is an exciting new product launch year at Homecrest with fashion forward styles that continue to speak comfort. Introductions like Homecrest Woven, Grace and Havenhill Deep Seating, Vision steel dining and over 100 fire table combinations.

2016

The popularity of a long-time Homecrest customer favorite, prompted Homecrest to introduce the Liberty Barrel Chair.

CARE AND MAINTENANCE

COMFORTEXT AND ACRYLIC, COMFORTEXT, POLYESTER BLENDS AND SENSATION

Comfortext stripes and solid patterns are open weave fabrics constructed of thermal bonded vinyl coated polyester threads. These fabrics offer strength and durability, easy cleanability and quick drying times. UV stabilizers and mildew inhibitors are added to minimize the effects of prolonged outdoor exposure.

Acrylic, Comfortext and Polyester Blends incorporate acrylic threads to produce an intricate pattern with all the above advantages, plus they offer a softer feel and more color intensity.

Cleaning Instructions: Address stains promptly. Use warm water with a mixture of strong liquid detergent and chlorine bleach (one cup to three gallons of water). Always rinse thoroughly. Pat to remove excess water and allow to air dry.

ACRYLICS, ACRYLIC BLENDS AND OLEFIN BLENDS

This category includes solid colors, stripes and low jacquard patterns. By using solution-dyed threads, which are then woven into a pattern, the results are the look and the feel of fine indoor fabrics that are recommended for outdoor and indoor use. UV stabilizers and a protective coating are applied to produce a fabric that is very durable. Another advantage is the easy cleanability.

Cleaning Instructions: Address stains promptly. Add 1/2 cup of chlorine bleach per three gallons of mild soap solution. Always rinse thoroughly. Pat to remove excess water and allow to air dry.

ACRYLIC PRINTS AND POLYESTER PRINTS

Printed fabrics offer an infinite variety of color and pattern options. The design is printed on the base cloth of either 100% acrylic or 100% polyester. We specify only the highest quality UV stable inks. Printed fabrics are recommended for outdoor and indoor use but must be cared for more vigilantly. The use of a breathable furniture cover on printed fabrics will help reduce fading and extend the life of your fabric.

Cleaning Instructions: Address stains promptly. Use a solution of lukewarm dishwashing liquid. Sponge thoroughly with clear water. Pat to remove excess water and allow to air dry. Do not use harsh cleaners or bleach on printed fabrics.

WOVEN CARE AND MAINTENANCE

Regular washing with nonabrasive, mild soap and water will remove dirt, body oils, chemicals and other substances. Rinse thoroughly; do not pressure wash, and allow to air dry.

WARRANTY

Homecrest Outdoor Living is devoted to providing the consumer with industry leading comfort and quality. With over 60 years of experience in manufacturing outdoor furniture, we are widely known for our comfort, quality and style. Our suppliers, manufacturing team and sales personnel are devoted to making your experience with our products an enjoyable one.

15 YEAR (RESIDENTIAL LIMITED WARRANTY) AND 5 YEAR (COMMERCIAL LIMITED WARRANTY)

Homecrest Outdoor Living's 15 year residential limited warranty applies to Homecrest products used in a residential setting only. Homecrest Outdoor Living's 5 year commercial limited warranty applies to Homecrest products used in a commercial setting only. All warranty periods are based on the original purchaser's date of purchase, and are not transferable. Our warranties apply only to products shipped from the factory after January 1, 2008 (product codes ending in -08 or later). A copy of the original sales receipt and the product code must be submitted with all warranty claims (photos may also be required).

WHAT OUR WARRANTY COVERS

15 years (Residential) and 5 years (Commercial): Aluminum and steel frames are covered from structural failures for 15 years from date of purchase in a residential setting and five years in a commercial setting. If the frame fails during the 15 years in a residential setting and five years in a commercial setting under normal usage, and is not the result of abuse or an "act of nature", Homecrest Outdoor Living will repair or replace the frame at the manufacturer's discretion. If replacement is required, and your original frame is no longer manufactured, we will replace it with a similar product. Homecrest Outdoor Living will pay the warranty freight the first year in the Continental U.S. Return of product will not be accepted without prior approval.

5 years (Residential and Commercial): The warranty on painted frame surfaces covers against peeling, flaking or blistering for a period of five years. If the painted surface peels, flakes, or blisters and the furniture has been maintained per the recommended care and maintenance instructions, Homecrest Outdoor Living will repair or replace the frame at the manufacturer's discretion. If replacement is required, and your original product is no longer manufactured, we will replace with a similar product. Homecrest Outdoor Living will pay the warranty freight the first year in the Continental U.S. Return of product will not be accepted without prior approval.

3 years (Residential) and 1 year (Commercial): Solid surface table tops (excluding glass) are warranted against structural failures, finish cracks, and blisters for three years when used in a residential setting and one year in a commercial setting. Failure to properly maintain the table top, or store it properly during inclement weather, will void the warranty. If the table top (other than glass) fails, or the finish cracks or blisters during the warranty period, we will repair, refinish or replace the top. Homecrest Outdoor Living will pay the warranty freight the first year in the Continental U.S. Return of product will not be accepted without prior approval.

3 years (Residential) and 1 year (Commercial): Vinyl strapping is warranted for three years from discoloration or breakage in a residential setting and one year in a commercial setting. In the unlikely event that the strap significantly discolors or breaks, Homecrest Outdoor Living will supply replacement strap (installation labor not included). Glider bearing hangers are warranted for three years against failure in a residential setting and one year in a commercial setting. In the unlikely event a bearing hanger fails, Homecrest Outdoor Living will supply a replacement hanger (installation labor not included). Homecrest woven products are covered for three years against fading, cracking and structural failure in a residential setting and one year in a commercial setting.

2 years (Residential) and 1 year (Commercial): The fabrics used on our cushions, slings and umbrella canopies are warranted for two years in a residential setting and one year in a commercial setting against tearing, discoloration or fading when maintained per the recommended care and maintenance instructions. In the event replacement is required, Homecrest Outdoor Living will replace the cushion, sling or umbrella canopy with the same, if available, or comparable fabric based on manufacturer's discretion (installation labor not included). Homecrest Outdoor Living will pay the warranty freight the first year in the Continental U.S. Return of product will not be accepted without prior approval.

2 years (Residential) and 1 year (Commercial): Crystal fire burners (24" Round and 12" x 24") are warranted to be free from defects in material and workmanship for a period of two years from the date of purchase in a residential setting and one year in a commercial setting. The warranty is limited to the replacement or repair of defective components or workmanship. If replacement is required, and your original product is no longer available, we will replace it with a similar product (with limited lifetime on steel parts).

1 year (Residential and Commercial): The warranty of the finish on coiled steel spring rocker mechanisms, plastic parts, flex plates, glides, swivel inserts, metal umbrellas, cord and umbrella base for one year in a residential and commercial setting from the date of purchase when maintained per the recommended care and maintenance instructions. Homecrest Outdoor Living will repair or replace the frame at the manufacturer's discretion. If replacement is required, and your original product is no longer available, we will replace with a similar product.

WHAT OUR WARRANTY DOES NOT COVER

- Failure caused by misuse or lack of appropriate care and maintenance of the products. Refer to the General Maintenance and Cleaning Instructions.
- Damage caused by caustic chemicals and/or power washers.
- Warranty on product shipped from the factory prior to 1/1/2008.
- Glass and Acrylic table tops.
- Normal fading of fabrics, straps and painted surfaces.
- Bursting and cracking of tubing and extrusion caused by exposure to moisture and freezing temperatures.
- Damage caused by "Acts of Nature."
- Return freight after one year.
- Set replacement or replacement beyond failed product.
- Salt water exposure – Due to the demands of salt air, weekly cleaning and quarterly waxing of painted surfaces must be maintained to prevent finish blisters and corrosion. Failure to carefully follow our care and maintenance instructions will void the warranty.

FREIGHT

All Homecrest Outdoor Living furniture is delivered to the carrier in factory new condition. Claims for damage or losses that occur during shipping must be noted at the time of delivery and filed with Homecrest Outdoor Living. Send written notice of the claimed condition to:

Homecrest Outdoor Living, 1250 Homecrest Avenue, Wadena, MN 56482.
