► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion. For this collection, DreamCore features a boxed panel design and a fuller, softer sit, while UltraCore has a curved panel design, streamlined look, and firmer support. For contract, we recommend the UltraCore cushion.

Available in: C Cushion

*Units are not standalone pieces. We recommend using end units with arms on all modular configurations due to exposed brackets on armless versions.

Note: Solid color fabrics that have a woven texture or color direction will run the opposite direction on the back of all Blair pieces. Sensation slings are not available for the back.
